Statement

No. 19/1/91—FA(UN)

Ministry of Personnel, P.G. and Pensions

(Department of Personnel and Training)

New Delhi, the 14 July, 1993

OFFICE MEMORANDUM

Subject: Induction of Indian officials/ professionals working in international organisations like the International Monetary Fund and the World Bank, into Government of India system.

Reference: The Ministery O.M of even number dated 7th May, 1993.

The question of allowing Government servants to draw pensions from international organisations and certain related issues have been examined. It has been felt that India has an obligation, as a Member-State of various international organisations like IMF, world Bank, etc. to lend the services of employees of the Government of India, the State Governments as well as other Indian professionals to these organisations. As such, there is no bar on lending the services of Governments employees as well as other Indian professionals to these international organisations in terms of the instructions on the subject. As a logical conclusion, there is no bar on drawing of pensions by Government employees who have served with international organisations in accordance with the instructions on the subject.

2. However, as far as the related question of inducting experts in Government of India while they hold a lien on jobs in international organisations, is concerned, it has been decided that if a person working in an international or foreign organisation is offered a clear vacancy with the Government of India, he must sever his connections with his parent organisation. If, however, it is not possible to offer him a clear vacancy in the Government of India, the question of lien would be dealt with on a cases to case basis.

3. These instructions are issued in supersession of the OM referred to above and will come into force with immeidate effect.
